**ALU-SAFE® DP**

**ALU-SAFE®DP**

**ALU-SAFE®DP** is an internationally certified unique high-performance workwear fabric and garment system to protect workers against the hazards of molten aluminium and cryolite (reduction cell flux) splash in primary aluminium smelters and downstream operations. In addition to its unique molten-metal shedding ability (aluminium and cryolite stick to all other known types of material), ALU-SAFE®DP is inherently flame-resistant for the life of the garment and the brand comprises a head-to-foot® range of accessories which include a smelter boot, socks and balaclavas. The comfortable-to-wear natural-fibre ALU-SAFE®DP protective wear is water washable in industrial laundries.

**ALU-SAFE®DP**  
Electric Arc Flash, 10 Cal /cm2, CAT 2.

**ALU-SAFE®DP**
